Patented side mounting system

Conveyor to conveyor interlocking system

 A proud member of the
BouldinCorp™ Family

Portable Conveyor

Portable Conveyors are light-weight and rugged, and are available in two standard lengths: 10' and 21'.

Conveyor to conveyor interlocking system – this ensures conveyors are always aligned, correct height and correct spacing for pot and tray transfer.

Patented side mounting system for 90° conveyor to conveyor transfer. Simply select one of the cut-outs on the side of the conveyor for the 90 degree location of your choice and height and spacing are automatically correct. No more time consuming adjustments – pot transfer made easy!

Manufactured with a 10" wide, self-aligning belt, and anti-friction conveyor bed, the Portable Conveyors transfer pots or trays (5" to 5 gallon) with ease.

Specifications
