# Mini® Flat Filler

## Model # 13402

The Mini Flat Filler is designed for the grower who wants to take the first step into automation or for the larger grower with a specialty need. This equipment gives the user high speed production, simplicity of operation, low maintenance.

The Mini Flat Filler is the most cost effective way to uniformly fill flats and shuttle trays. The Mini Flat Filler will accept any container up to 15" wide and 8 1/2" high.

Equipped with a variable speed conveyor and a power sweep to ensure uniform filling of each cell. An adjustable wiper, and powered rotary brush performs the finishing touches on filled flats along with a built-in soil return.
