18" wide variable speed planting conveyor; with auto soil return system

Easy operation with manual or auto switch for small/large pots

A proud member of the BouldinCorp™ Family

InstaPotter™ Pro

2 Yard Model
11416 (Single Phase)
11418 (Three Phase)

4 Yard Model
11430 (Single Phase)
11431 (Three Phase)

The Insta Potter Pro is designed for efficient potting of bare root materials into containers ranging from 6" to 18" diameter with an optional 24" wide conveyor upgrade.

A variable speed low-profile 2 yard hopper (optional 4 yard) provides a consistent flow of material over an 18" wide variable speed planting conveyor, allowing the grower to set the pace of production.

An automatic soil return system recovers unused soil to the material hopper. The system is easy to operate, with quick change-overs and low maintenance.

Specifications

Power	220 V/ Single phase/ or Three phase 50 or 60 Hz
Production	Up to 2,750 1 gallon pots an hour
Dimensions	10'3"L x 14'11"H
Weight	Approximately 1250 lbs
Capabilities	6" to 18" diameter pots
Options	Bulk feeding system Vibrator for planting conveyor Infeed or take-off conveyors 4 yard hopper 24" wide planting conveyor

Made in the USA
